### LOOP OF SHIRTS | Upcycled Designs

In this project, a circular sustainable system was established for men's shirt manufacturers. In this system, 12 looks were designed and only 4 looks were produced with the upcycling method. Men's shirts and stock fabrics were used as materials. Separate front and back body designs were made for each look.

Moodboard

Process

They were made on the machine in many ways, for learning a short time period. By making these specific models, it was understood from my drawings should be developed and those they should look, just as I designed the front bodies of the designs. The texture of each of these on the body body were also designed.

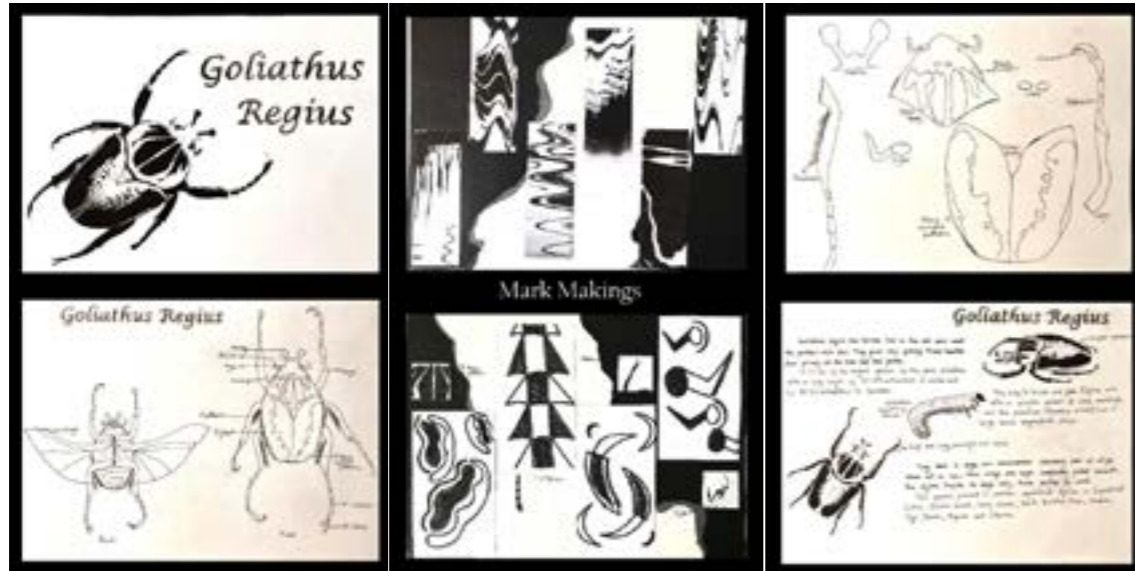

Collection

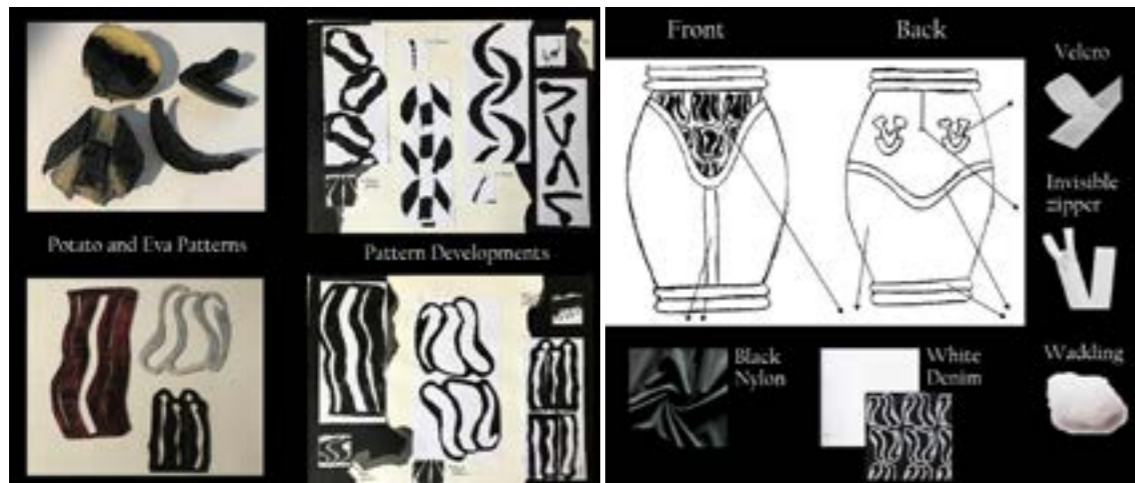

### GOLIATHUS REGIUS | Skirt Design

In this project, inspired one insect which name is Goliatus Regius. It researched and analyzed its body and then designed skirts. One of these skirts is sewn. As fabric, white denim and black nylon were used.

### **GREY DREAM | Dress Design**

In this project, a dress as beautiful as a dream was designed. It is prepared with a soft and shiny concept. A low sleeve crop is combined with a circle skirt form. Matte satin is used as fabric.

### THE JAZZ AGE | Dress Designs

The jazz age workshop was inspired by the style of the 1920s. Hairstyle and shoes are exactly reminiscent of the 20's, these dresses are combined with pearl necklaces and fancy belts. Two dresses were sewn for this workshop.

### ESSENCE OF NATURE | MensWear Collection

It inspired by the Homestead concept. In addition to comfort, an appearance in naturalness has been obtained. It is designed jacket, body and salwar trouser to this look. As fabric, it is used in a brown leather jacket, a dark gray knitted body, and a dark brown cotton gabardine salwar suit.
